

Acknowledgements

I would like to express my gratitude to my supervisor Dr. Priyan Mendis for initiating this project and for providing continuous support and encouragement.

I thank other academics, Dr Nelson Lam and Dr. John Wilson for teaching me a lot about earthquakes and also Dr. Nick Haritos for teaching me about structural theory. I thank Dr John Stehle for helping me in finite element modeling issues.

The financial support provided by Andy Stodulka of Decoin Pty. Ltd and Australian Research Council are greatly appreciated.

I would like to sincerely thank Andrew Sarkady of MBT (Aust) Pty. Ltd. for materials support for this test program. I would like to acknowledge Richard O'Connor staff of Structural Systems Pty.Ltd. for carrying out the rectification work.

I would like to thank Grant Rivett and Graeme Bannister, the laboratory technicians for their help, thoughtfulness and dedication in the undertaking of the experimental work.

I thank my wife Thushari, and two sons Matheesha and Kaveesha for their patience and support without which this project would not have been possible.
